Number of boys enrolled.....1,349
Number of girls enrolled.....1,174
Total enrollment.....2,523
Average daily attendance.....2,191
Per cent of attendance.....86
Number of new pupils entered.....211
Total enrollment to date.....2,810

More than passing interest attaches to the November report and roll of honor of the Phoenix public schools, just compiled. One thing, quite noticeable is the increased proportion of attendance of boys over that of girls. At the present time there are 1,349 boys enrolled and classed as regular attendants at the schools, while there are but 1,174 girls enrolled. This makes a total present enrollment of 2,523. Of this large enrollment the average daily attendance of 2,191, or a per centage of 86.

During the month of November 211 new pupils were enrolled, making a total enrollment for the present school year, irrespective of those who for one reason or another have ceased attending and have been dropped, of 2,810.

The roll of honor, too, is larger than usual, indicating the healthy interest being shown by the pupils, who are required to attain a per centage exceeding 90 in their studies before having their names placed thereon. The complete roll of honor, by schools and grades follows:
